

## Project Description

Demolish a three-unit single family dwelling located along South Front Street (#120, #122, and #124) along with a five-unit garage structure located along the rear alley. The lot is overgrown with large trees.

This project's estimated cost is \$150,000. The actual cost will depend upon the bids received during the procurement process.

The project scope includes demolition of dwelling and garages; excavation of dwelling basement (if applicable), backfilling, and tamping; and grubbing and tree removal.
